## 2018 CSA (Community Supported Agriculture) Membership

### Why OUR CSA?

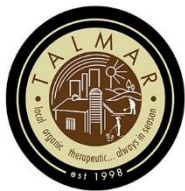

**Taste:** We carefully select our produce varieties for excellent taste and quality. **Freshness:** Produce is harvested on or before the day you receive it. **Health for Body and Soil:** Our produce is grown organically without pesticides in fertile soil resulting in highly nutritious food and healthy soil.

**Support Local Agriculture:** Through a CSA, your dollars go directly towards strengthening and sustaining a small farm. Our farm at TALMAR also provides programs and services for individuals with disabilities. Your membership helps our farm to purchase seeds and supplies. The majority goes back into our programs! Get to know the farm and farmers. See where and how your food is grown.

**EGGS:** Add a half or whole dozen of eggs from our free range, organically fed hens, laid the day of your pick-up.

**FLOWERS:** TALMAR is known for our specialty cut flowers, organically grown in diversity in our hoop houses and in the fields. We sell to the largest food retailers, wholesale and retail florists. Avoid the mark up and add a fresh medium sized bouquet or bucket of stem cuts (12- 14 inches) to your WEEKLY produce!

**STAFF AND OUR GROWERS:** Our staff is comprised of experienced production managers; each specializing in a specific area of floriculture, sustainable agriculture or horticulture. They will assure that you are provided with quality organic crops. Our organization's mission is to involve individuals with disabilities to take part in some aspect of our farm. Those growing, harvesting and sorting your shares are veterans and others that wish to learn new career skills while focusing on their individual rehabilitative goals.

**\*Please complete this form (front & back) and submit by mail to: TALMAR CSA**

## **Portion Type, Price and Commitment to Volunteer:**

**TALMAR 's 2018 CSA** will be broken up into two seasons. We will have a 20-week Regular season and then a 7-week Fall Extension. The 20-week season will start the week of June 4 and end the week of October 15, 2018. The Fall 7-week season will start the week of October 22 and end the week of December 2. Each week during the CSA season, we will be sending newsletters, via email, letting you know what vegetables and herbs (and flowers) to expect for the week coming and give you recipes. It will also be posted on our website. In addition, we will include recipes that you might want to try using the vegetables harvested that week and general news about TALMAR and the farm. We hope you will join us for our 2018 CSA Season!

### **Regular 20 Week Season (Full and half Shares)**
